

# 4-Conclusion-Survey

May 15, 2020

## 1 Conclusion

Version 0.14

In this Redfish lab, you have learned its basic architecture using simple `cURL` and/or `PowerShell` commands and simple python instruction using DMTF's Redfish module.

**Congratulations!**

### 1.1 Homework ?

You can download the different notebooks composing this lab and reuse them on your own laptop (provided the fact that you own the relevant infrastructure to interact with.) leveraging a local setup of [Jupyter notebooks](#).

Simply right click on the notebook and/or the .PDF file and select **Download**.

## 2 Final Steps

**2.0.1** Please take a moment to fill out our [survey](#)

**2.0.2** Make sure you use **File->Log Out** to terminate your workshop.

## 3 Hack Shack

Powered by [HPE DEV Team](#)

## 4 Thank You
